

**Join learners, teachers, parents & community members from all over the Western Cape on
Friday 27 October &
#MarchForSafety!**

Our government is failing to keep us safe. Working-class communities live & work in fear & children die in our schools.

We demand that provincial & national government put their party political loyalties aside & work together to end the safety crisis in the Western Cape:

- Police resources must be reallocated equitably & rationally to ensure all communities are safe!**
- National government must make more resources available for school safety!**
- SAPS & WCED must work together to keep learners & teachers safe!**
- Safe, specialised ways to report rape, sexual assault & gender-based violence must be established!**

**THIS PAMPHLET IS YOUR
METRORAIL TICKET!**
