5 POINTS

Teaching Ideas: Abstract 1 Create an inspiring Maker Space in your school or classroom

ALL EDUCATORS

During the discussion, explore ideas of how to create an inspiring Make Space, encouraging collaborative learning, team-work, problem-solving and critical thinking. Teaching students that it is okay to fail, but not give up. Provide examples of the possible devices and tools to consider depending on the age of learners. Suggest both separate and in-class innovative, maker spaces, looking at high-tech and low-tech offerings for the teacher to use, making the learning relevant and appropriate.

presenter

KAREN WALSTRA

**MONDAY, 31 MAY 2021
15:00 TO 17:00**

COST: NAPTOSA MEMBER R100 / NON-MEMBER: R150
