NATIONAL DAY OF ACTION – SURVEY RESULTS

In response to the call from the Labour Federations in NEDLAC for a National Day of Action, NAPTOSA urged all members to participate in this critical decision-making process. Members were requested to complete a survey to provide the NEC with a mandate for the National Day of Action (*See NNF27 of 2024*).

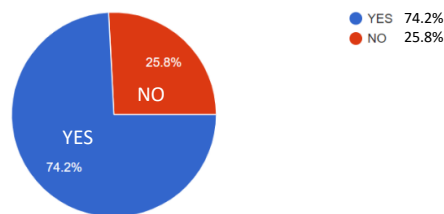

The mandate from the survey results, where **51.6%** of members indicated that they **will not** be participating in the protest is the NAPTOSA position. As a result, **NAPTOSA will not be striking on the day.**

In terms of the strong support shown for the day of action, there is a clear indication that NAPTOSA must do more to address these pressing issues. The NEC will discuss possible actions with our social partners that will apply more pressure on government to prioritise education and education personnel.

The results appear to be in line with feedback reported by the other teacher unions in response to the call:

 74.2% of respondents are in support of the National Day of Action:

Are you in support of the National Day of Action?

 51.6% of respondents indicated that they **will not** be going out and protesting on the day.

Will you be participating in the day of protest?

The survey outcomes will feed into the broader FEDUSA block, and members will be kept informed as the situation develops.

The NAPTOSA NEC extends their sincere thanks to all the members who participated in the survey.

Mr BL Manuel

Executive Director
